**Invitation to Tecta's press reception with designers
Marco Dessí and Martin Hirth at Design Post Köln during
Orgatec:**

FUTURE RETHOUGHT

**On the occasion of Orgatec, we cordially invite you to
Tecta's press reception at Design Post Cologne on
October 26 at 11 am.**

Returning to traditional craftsmanship, sustainable materials and products - the thoughts of today's working world, are also ideas that shaped the Bauhaus since its founding by Walter Gropius more than a hundred years ago and are still the signature of Tecta today.

Currently Marco Dessí and Martin Hirth designed furniture for Tecta in this tradition, which can no longer be defined. They are ingredients for the hybrid or green office, enrich public areas or restaurants; hack offices as living space or transform the private refuge with a portion of seclusion into a space-creating working world.

Both designers will be available to answer questions at **Tecta's press reception on Wednesday, Oct. 26, 2022, 11 a.m.**, during this year's Orgatec in the Design Post, showing what inspires them, excites them and makes them think. **We look forward to meeting you in person**, to exchange ideas, interview or let your head spin with Marco Dessi and Martin Hirth. Of course, with finger food and with the dedicated Tecta team in the Design Post.

We ask for your registration until October 18.
